

How to use the Record Player

1. Plug in the Record Player

2. Look for the Flashing Blue Tooth Button, on the left of the turn table.

3. Connect the Turntable to the Bose Speaker via Bluetooth connection:
Turn on the Bose speaker with the Bose remote.
A green light will appear in the bottom left corner.
Press the Bluetooth button on the remote.
A white light will appear to the right of the green light.
Listen for it to the connection beep.

4. On the Record Player the Bluetooth light will be a solid blue light when connected.

5. To Play a Record:

Remove a Record from its jacket and sleeve. Only touch the edges of the record. Be careful not to touch the grooves on the record surface. Gently place the record over the pin on the felted turntable.

Press the START button. The needle arm will rise and will auto land on the record to innate the play.

You may need to TURN UP The volume on the Bose remote.

6. Stop the record from playing by pressing the STOP button. The needle arm will rise and auto load back to its cradle. Gently remove the record, touching only the sides and return it to its sleeve and jacket.

Happy Listening
